2008 science and technology network in the Asia-Pacific summit news conference, the guests attending the meeting (Left to Right) included: APRICOT Chairman of the Management Committee of Philips • Smith, president of the Asia-Pacific network Youpa Haya (Gaurab Raj Upadhaya), Ministry of Posts and Telecommunications Administration, Tim Tang, chairman of the Taiwan Network Information Center Laifei brown bear. since 1996 for the first time, the 12-year-old "science and technology

network in the Asia-Pacific summit (Asia Pacific Regional Internet Conference on Operational Technologies, referred to as the next APRICOT)", in 2003, the 12th of The General Assembly returned to Taiwan for the Taiwan Network Information Center, Lai Fei said that the brown bear, with the upgrading of Taiwan's Internet usage, network industry in Taiwan are in the process of transition, the government extended network of industry at the same time, this international event to Taiwan in the process, but also a global (including Taiwan), industry, government and academia, to learn from each other a great opportunity to experience.

APRICOT chairman of Philips • Smith (Philip Smith) at the press conference, said: "Although the conference is designed for the Asian Network of the design industry elite, but I believe that Asia, Europe and contains The United States and the countries of the elite, it should also be carried out through this meeting, the study of Asian industrial development experience. "

When the President of the Smith in a reporter Rico Shen asked about the concern in the near future, "Edison crisis", "Information Security" and "customary use of the Internet"-related issues, he said: "Although this is a recent fever Topic, but in the information security industry for the design of the technology curriculum, in fact, there are some solutions for industry. Of course, users also need to cultivate a correct concept of the Internet. "

the exception of the 20 to 24 days for five days, in accordance with the nature of the technology, for the first training course, designed for industry, government and academic circles the core of the speech and activities of the seminar is 25-29 in the day, including the Asian Network Tong, President and Chief Technology Officer Kwan Dali, Academia Sinica academician Liu Chung-lang, Luo Hong Chunghwa Telecom as an Engineer in the Asia-Pacific Internet Information Center, the former Chairman of the Executive Committee of the village of Chi-chang, and so on a number of heavyweight guests will be for the development of IP technology, network security , The convergence of communications, such as technology, and industry-related topics, a keynote address.
