Functional explanation

all computer hardware in sight of information, personnel management no longer around. Quickly master the hardware, easy to inventory hardware assets. Hardware assets, changes took place immediately notified the manager, network management personnel favorite intimate design.

Examples

hardware asset inventory information for the sector has long been a synonym for equal work, computer hardware procurement, inventory replacement and personnel management is the dream of satiation. Field staff together with the portability of equipment (laptop), so that inventory is more complicated work. So I would be grateful if those annoying issue to the MISKeeper, "hardware asset management" can be quickly and complete display of all computer hardware, and different departments to

compile the statistics. When the hardware device was removed, the better to inform the manager immediately, so that administrators can quickly and indeed the completion of the hardware asset management.
